

About KRAIBURG:

KRAIBURG group

KRAIBURG has established itself as an expert specialist in the rubber business. The KRAIBURG Holding GmbH & Co. KG has a staff of more than 1,800 employees worldwide, mainly in Germany, Austria and Switzerland.

KRAIBURG technology

Since 1968 we have been developing and manufacturing rubber floor mats for animal houses. Today about 160 employees exclusively concentrate on these products.

High quality rubber materials

Rubber mats are subject to extremely high stress in agriculture. We have been manufacturing high-quality rubber mixtures with a unique process for over 40 years. Experience will tell you that not all rubber mats are the same.

Soft lying and walking on KRAIBURG rubber flooring pays off easily

If you have any questions? We look forward to hearing from you!

* in accordance with DLG

Tested quality:

We are certified with the European-wide ISO 9001 : 2008 standard.

We operate an in-house laboratory and test the properties of our products here.

In addition we regularly have our products voluntarily tested by the DLG (results under www.dlg.org).
